

KNIGHT
CANCER
Institute

What do you think?

Join us for a focus group to share your thoughts and opinions about research, genetic testing, and cancers that can be inherited.

The OHSU Knight Cancer Institute and the Cancer Early Detection Advanced Research Center are seeking Oregon residents, aged 18+, to join a 60-90 minute focus group (guided conversation) with five to ten other people.

We want to hear your thoughts and opinions about participating in genetic research, and want to learn about your understanding of genetic testing and inherited cancers.

We are interested in hearing from all members of the community, including cancer survivors and patients, physicians, and others with an interest in inherited cancers.

Focus Group Regions:

- Astoria
- Baker City
- Beaverton
- Bend
- Burns
- Coos Bay
- Corvallis
- Eugene
- Florence
- Forest Grove
- Grants Pass
