

# Where will you spend your gap year?

ReConnect Scribe Program for future MD/DO/PA/NP students

## Look at your "gap year" with a new perspective.

If you are about to graduate with a pre-health Bachelor's degree and are preparing for Medical, Physician Assistant, or Nurse Practitioner programs, you will likely have a gap year in which you are applying to schools, preparing for entrance exams, and gaining patient-contact hours. The ReConnect Scribe Program is designed with you in mind. In this unique model, gap-year students are employed full-time as medical scribes in a clinical setting while simultaneously gaining patient-contact hours and applying to advanced degree programs.

If selected as a ReConnect Scribe, you will begin your clinical scribe experience after graduation from your bachelor's program in Roseburg, the heart of southern Oregon. The next cohort of ReConnect Scribes begin their journey in summer 2018. Will you be one of them?

## Outcomes of being selected as a ReConnect Scribe

- Gain professional experience in a clinical setting
- Complete over 1,000 patient contact hours while earning wages as a medical scribe
- Work side-by-side with practicing physicians
- Observe provider-patient interaction during patient appointments
- Engage in interpersonal relationships with providers, clinic staff, and patients
- Experience the healthcare landscape of a rural community
- Develop empathy for the unique needs of a medically underserved population
- Strengthen your resume for Medical, Physician Assistant, or Nurse Practitioner Programs

## How is the ReConnect Scribe program different from other experiences?

The ReConnect Scribe is not your typical scribe-recruitment program. ReConnect Scribes is powered by a non-profit organization with the mission of improving the quality of healthcare in rural Oregon. ReConnect Scribes focuses on placing students in Federally Qualified Health Centers (FQHC's) across the region of southwest Oregon. This unique program provides aspiring medical providers the opportunity to work with underserved populations and gain valuable experience providing healthcare in rural Oregon.
